

**“The harvest is plentiful, but the laborers are few; 38 therefore pray earnestly to the Lord of the harvest to send out laborers into his harvest.”**

**Matthew 9:37-38**

Being on the Field as servants of God and as you come before struggle and before a rocky soil we think that there are no people that are interested on God. But as Jesus was on field of service, He said the harvest is plentiful.

### **Benevolence Ministry**

It has been a while that we have started this ministry, we try to gather clothes, children toys, whatever that we can think we don' t want any more or not us, it can be useful and very desirable to the one that does not have it. Grocery supplies we gather together and give to the needy (*especially blind people or families*, that might not be a lot but sure it lighten up the burden. Also we have been helping a new couple who recently brought to life triplets three girls. The triplets spent almost two months at the hospital because they were underweight. Now they are home and healthy with their family. We also are in contact with a couple other families which are in economic difficulties, one family has a daughter about 13 years old that has problems with her kidneys that needs to be under medication most of the time during the year.

### **Children' s Ministry**

We are continuing our attempts to make Children Classes every opportunity that we can get. Now that the school has begun it makes more difficult for the opportunities to gather children together. Among the blessings that we get having kids around for classes, we have the blessing that parents now have started to greet us on the road.

### **Evangelism**

Living Christ on daily bases, greeting people that other people don' t, having the patience to listen to the conversations that sometimes doesn' t make sense! It can be a great tool to evangelize, you show them that you care and you respect their thoughts. Building relationships and spending time with people it' s crucial for spreading the Good news. Encouraging fact is that also the members care for such thing and their daily life use every opportunity to share their belief.
