

Thank You Lord

There are so many things that come in our lives that make us to think and reason that there is ONE POWERFUL GOD. Every one of us can make a quick review of his own life and we all will have a moment that we may say WOW! Because God has acted with power in our lives that make us reason God is control and just have the obligation to say thank You Lord.

Our Week

So in these times as we go daily on the field of God, we have often have thought, there is nothing that we can do, there is so many wickedness on this World and you can see many people that they hearts are harden even more. So in midst of this comes someone that has a soft heart and a good soil that God's Word can be planted easily. We have mentioned to you Klodi, a young man that works as guard at Trade Center here in Fier called (QTU). Every time that we would have a chance to spent some time with him, he always will have something to talk with us and want to be encouraged and to be advised. We Thank the Lord that has trusted on us these abilities so that we may help people as blessing that comes from God.

Wednesday Bible Class

Since there is the only day during the week that all the members come together, we arranged for Jonida Martin to come with the Eye Doctor to come and make free visits for the eyes. IT was good opportunity to have all the members having free visits also there were some visitors, which helped us to contact them for the first time. We also are planning to have another time for the doctor to come here this week, hope that we can do that in order to make more contacts.

Lady's day

On Saturday July 10, 2010, Church of Christ Elbasan, organized the Ladies day, and some of the Ladies from the Church of Christ were able to participate 8 Ladies plus Iva Eda's daughter.
