

Alda Koci's Family . Which are very dear to us.

Klajdi and His wife when we bought the goats.

SERVING LORD WITH ALL WE CAN.

January – February 2020

During this time, we have been in contact with different families. Trying to develop connection with couples. We have right now 4 couples that I have been in touch with and developed some good relationship with them. The husbands have participated in some of our worship services.

Benevolence.

As Jesus teaches on many occasions to give to the needy, we are trying to reach to the community by trying to help some and ease a little bit their poverty. Have been in touch with many families. One that we have been in touch lately. It is through Alda Koci's Father she is our sister in Christ. Have been trying to establish relationship with him too and trying to share the gospel. So, his friend (Klajdi Dharmo) that it is in need and lives in a village called Pishe he has 4 boys. The Church helped him to buy three Goats also have helped with food supplies. Gave them a Washing Machine. But it was encouraging is to see Alda's father to get involved on helping him too by giving by his own and asking others to see what they can give.

Also, we have two families in village (Kallm). One the man is blind (Agron) and he has two boys. The other family (Lulzim's family) has two boys and one girl. They have economic problems too, so we have been trying to help them too with food supplies.

Teaching and Building Relationships.

I have good student Argjend Sako, he has been studying English with me for a while now. He has married has two children a boy and a girl. He has been attending worship together with his family several times. The all seems to enjoy coming and spending time with us. Argjend has been a serious student and has come to a very good understanding of the Gospel. And understands too the need to be baptized. Hopefully he will come with a definite decision to do so.

Another good relationship I have established is with Genci Caci, which has two daughters. He helped with getting in touch with all the children that we had for Christmas and since then we have been working together reaching out to the community. I think he has a good grasp of Gospel too, hopefully someday he will come with a decision to follow Christ.

Also, for Teachers day which it is on 7th of March here in Albania through Genci we got connected with the School where is volunteer as coordinator for parents' council. We were able to provide 100 flowers to give to staff of this school for their Teacher day. Also managed together with the card that students have been done to attach some bible verses at the card.

April—May: As you all know we were quarantined for 3 good months. And we tried our best to get adjusted with new way of Worshipping and Classes. I have been working hard to get Live Online without asking people to install an app or open an account. And the only one is YouTube. Our Old folks not that advanced on technology the only way was only to follow the link that's all. During this time have been trying to be in touch through phone calls or sms. Also been very encouraged even with little knowledge on technology brothers and sisters have been trying to be in touch and follow the lessons via YouTube.

News from Our Family. Every child that is born is proof that God has not yet given up on human beings." -Rabindranath Tagore. Vosjana is pregnant and is a boy. Will due to October. Please keep us in your prayers.

In His Service Altin and Vosjana.

Prayer Requests

Pleas prayer for our contacts. Toni and His Family. Genti and His family. Genci and his Family. Argjend and His family. This are contacts that have come to Church , let 's pray that they may continue and come to accept Christ.

Please pray for Genci Caci, he lost his job and is going some difficult time right now.

Teachers at Art School which we gave them Flowers for Teacher's Day.
