

## **"WHERE WERE YOU WHEN I LAID THE EARTH'S FOUNDATION? (JOB 38:4 NIV)**

Dear brothers and sisters,

We often feel like a bird whose wings are injured and still try to fly, whose legs are broken but still tries to escape, whose eyes are blind and still tries to see, whose ears are deaf and still tries to listen. We feel like the whole earth is on the top of our heads, and that's too heavy and we can't handle it.

The challenges of our faith often are like earthquakes and we fall down like a destroyed tower, like a tree burned from the fire, like a rock falls apart from the mountain. And so on from a strong tower we turn back into bricks, from a tall tree we turn back into ashes, and from a strong rock we turn back into stones, forgotten and lost in the dust of sin.

But praise is to God almighty because it is by His word that the earth was formed and still stands, by God's word mountains still remain unshakable. It is all by God's word that we stand and we are restored back again; from bricks to a strong tower, from ashes to a tall tree, from stones in the dust to a strong rock into the high mountains.

We are so blessed to proclaim such a wonderful God to the lost people in Fier and everywhere we go.

### **Wednesday Bible classes**

We started to study another topic; "Indifference" we know that there's no room for indifference in a Christian life.

### **Sunday worship,**

We continue to thank God for God's greatest gift to the church, Jesus Christ, Eternal life! It is always a wonderful blessing to come as family of God to worship him. Ervin Leka challenged us from the word of God from (Genesis 3:8) on the question; how is our relationship with God?

To his glory and power,

Altin, Edi and the church
