

## IN CHRIST

I guess is one of the common expressions that is being used by those that are Christians, (In Christ) or In Him, or In His Service, Striving to Serve Him better, there are a lot of expressions that we try to give glory to the one that saved us to the one that bought us from the slavery. It's because of Him we are doing what we are doing. It's because of Him that brothers and sisters are in His mission all over the world also, are here on this part of the world called Albania. I wonder if there was not this kind of love this kind of care, and this kind of desire to serve and help people. I don't know for you but for me, I would not be interested as I am now, how things are going for different people on other parts of the world?

So all of you that may read this report you are already thinking somehow how things are going on that part of the world!? Especially for the service of the Lord, that concern comes from inside of every one of us it's because we are clothed with Christ (Galatians 3:27), it's because the family of God and His mission is bigger than our sphere of influence is bigger than the mission that we are at. So in some way we get concerned and we add those concerns to our daily prayers to the Father in Heaven. That's should be humbling to us what God does for in such wonderful way He blessed with the salvation through Jesus Christ He blessed with His big family all around the world He has also blessed with His love so that He makes all His own to be concerned for one another.

### **Humble for All His blessings**

It's been an interesting week for me as going out to serve the Lord; I am trying to use every opportunity to build redemptive relationships. Also a very encouraging is that I am studying the Bible daily with Klodi, it's very encouraging to see the joy of Klodi as he is learning new things about life in general and about God, and there are a lot of questions along the way.

### **Bible Class**

We are studying on the topic of "**Being Humble**" and along the way we are also "**Learning to Be Thankful to the Lord** for everything in that God has given us."

### **Worship Service**

We thank God that allowed us to be together and worshiped Him, I wonder how many Christians around the world God has brought together worship Him? But here Fier it was good to meet brothers and Sisters meet together for the same reason because they want to Worship Him. I challenged the brethren here from "**Galatians 3:26-28**" Clothing ourselves with Christ in speech and in our Actions.

### **Prayer Requests**

Thank God for Ketí she is doing okay for now, and the doctor has said that will not be a surgery, so she would be on the recovery mood, she is very encouraging to us also by attending the Bible Class and the Worship Service.

Also for Edlira she took the Master Degree, she confessed that was God that helped me on all those difficulties.

Pray for Klodi that will be open in mind and Heart to continue to study God's Word.

**In Him**
