

**“FOR MY THOUGHTS ARE NOT YOUR THOUGHTS, NEITHER
ARE YOUR WAYS MY WAYS,” DECLARES THE LORD.
(ISAIAH 55:8)**

As we are in Christ, we have to understand that He is in charge of our lives. For God his thoughts are not our thoughts. Every one of us has his plans how to build his life, and as we come in Christ, plans change He is in charge and he knows what He is doing. If we allow Christ to form us as He wants to will be an easy world.

For some accept Christ and want Him to their savior but they don't want to mess their lives! This something that we as humans beings created by God and bought by God if we really want to be saved we have to surrender all to Him.

What I Plan to...

Well I have been in contact with the Director of Blind people, and there are many needs that they need, but one immediate need is Audio Bible. Right now in Albania we have only the New Testament in Audio, but we don't have on audio the Old Testament. I am working to record that with myself, I know they have to hear my voice over and over again but it's better than nothing. So if we want to touch every person, these are some but they have different need that we do, for us it's ok if we have printed out but for them you have to read and record for them, also every other book that have been translated in Albanian it will be good that we have in audio too. This one of the plans that I have hope and pray this one of God's plans too.

Children's Class

For almost 1 month or so we have been having children class, we have been working with them and have planted some seeds. But for the month of August, we have to stop it because; kids are going away with their parents for holidays. Hope and we pray that we will start as soon as they are back.

Bible C lass

We have been studying the “**Parables of Jesus**” and so far we have studied 6 of them, last time we studied the “**Parable of The Sower**” God's word is challenging every one of us to stay focused and bear fruits.

Worship Services

First of all we thank God that gives us the opportunity to worship Him and honor his statutes. As everywhere for the summer time the attendance has gone low. Some decide to worship the sun instead of the Son.

But we have to trust the Lord that the seed that has been planted in everyone's heart will not wither, hoping and praying that God will open their minds and hearts to come to Him.

In His Service
