

LET US BE THANKFUL HEB 12:28

How many times in a month you are being thankful to the Lord? Or how many times a day you are being thankful to the Lord? Or how many times in Hour you are being thankful to the Lord?

Starting the day with thanks to God is very encouraging you just filled the tank of your spirit with fuel for the day. Starting the day with counting the blessings that God has blessed you with gives you strength to go through the day. There are so many favors that you gain when your hope is in the Lord.

We are thankful

We are thankful to the Lord that we are being chosen from Him to be saved to serve Him in place of service decided by He Himself. We are thankful to the Lord for the fact there where we do not see as possibility to evangelize there the Lord open a door to preach the gospel. We are thankful that God Himself refreshes our spirit in the time of distress.

Bible Class

we are continuing on studying the book of Romans and for this week studied chapter 11. Edi taught the class and challenged us through God's word. God's plan stays the same and there is nothing that can change God's plan.

Activities of the Week

There is something that amazes me always that I plan how to fill the day, and it never goes in the way that I planed because God always a better plan...when you are in the field you have to be flexible because you have to be at certain time when people are available to hear about what you have to say to see what you say! And

this is what it happen with us this week, when it seems nothing to do God shows a great door to us for evangelism. On Friday we were able to go to a **House caring for Old people**, there were able to meet the director and the staff that takes care for those old people. We were able to go there through Albert a young man that is teacher at a private school, and the school Albert through school has made program where to go at this place to help and also to show a movie. But he was able to find a computer and a projector so we assisted him with the computer with projector also with the speakers. And that was great possibility for us to get to know those people because we were not able before to that before, and this is a great door open, because there are 50 old people living there.

Sunday Worship

We gathered at the first day of the week to thank God for the gift of salvation that He has given us Jesus Christ. We are about 16 people worshipping the Lord. Edi preached from Isaiah 40:28-31. "Where is our Hope?" That helped us to understand that we can put our hope to people because people discourage us, but with God we get strength to keep going for the His Glory. Also we are celebrating the thanksgiving on Sunday interoperated with our Independence Day, where we had good time followed by a good food. That was a great day where we spent time together, and helping one another to realize how blessed we are by God by what he has already given us.

Prayers Request

We are looking for another apartment, I am going to live with Vosjana now that we are officially married known by the government also we are waiting for my father so we can make the religious ceremony which would no longer than second week of December. So pray that we might find a place to live. Also I would say for all the contacts that we have made so far that God may open their mind and their heart to accept Him and His teachings.

Thank to God we are a Family in Christ.

Striving to bring God Glory

Altin & Edi
