

Fearing God or man?

On the book of Proverbs are many advices whom to fear?... And one is "The fear of the LORD is the beginning of knowledge, but fools despise wisdom and discipline. "(Pro 1:7 NIV)! But if we turn back and examine ourselves we often will see we acted based on the fear on man not on God. I wonder why? And often so many people in very difficult moment will blame God why he/she is on that situation. This kind of situation goes far back on the Garden of Eden. When the first man was pointing the finger on the other side by throwing away his responsibility!

But our God teaches and requires responsibility and accountability. Based on our capabilities and based on our material blessings. He will require responsibility and accountability.

Our Responsibilities based on our capabilities

We are living in a world where people the creatures of God are working to build their own empires, their own place of comfort. And all their capabilities and energies are being used to gain more and more from this world. And there are so few people that are really trying to build the kingdom of God.

We are trying to do build God's Kingdom based on His instructions, very often we claim to follow Jesus' s examples, and what I have studied so far about the examples that Jesus have showed on the Bible are that He always goes. He always went there on the men's needs try to fulfill their needs to call their attention on hearing what He has to say. Wondering if we are doing the same thing!? On Jesus's time have been people did not respond on Jesus's calling and because Jesus did not change His method to please them so they maybe will respond His calling. Wondering if we change God's examples to please people so they may respond!? Wondering if we love men more than God!?

We are trying to use every skill that we have every capability that we have to be used on building God's Kingdom here in Fier and expand it to all Albania. We **are going on a High School fixing their computers** and all for free. Calling the attention of teachers calling the attention of students, on both sides our circle of relationship is getting bigger, also with those that we already we knew, is getting stronger. We know that this takes more time but it is effective. Our Lord Jesus Christ teaches us to build our homes on good bases...the same we are trying to build our relationships on good trustworthy bases. We are going where there is a place where old men stay some call Nursing House some call House caring, we are trying to help them too, one of the things that they really need is someone sitting with them and talk with them. Hearing their burdens and their worries! We cannot take away their burdens but Jesus can.

Our Bible Class

We are continuing our study on "**Worship**" We have studied so far "**Prayer**", "**Fasting**", and now we are studying "Singing" and then will Study "The Lord Supper"...These 4 Elements we believe that are very important to be learned very carefully from every single Christian. As we come to have a relationship with God, that is a personal relationship with the person and God, so it is very important to learn requirements for this relationship.

Sunday Worship

Gathering on the first day of the week celebrating the resurrection of Our Lord Jesus Christ, this Sunday corresponded with the celebration of "Easter". It is amazing how people forget all the year about God and then one day they want to celebrate what God has done for them. IT will be better and if all people come together every first day of the week to celebrate the resurrection of the Lord Jesus Christ. People forget God and forget that they must fear Him. Edi shared with us the Story of Balaam and Balak Numbers 22. Balak that want Balaam to curse the nation of Israel! And to the end that God uses a donkey to tell Balaam that was doing the wrong thing. God can use everything that we cannot imagine to tell us that we are wrong and nicely providing away to be right with Him.

Personal Note

Being daily on God's service it's a challenge, but when I go on His Word...and see that our service applies with His Word I am full of Strength...but in the same time I am challenged by His Word that are things that I need to change to give Him a better service. And this that I have written is my service described based on what God requires hopefully my Father is pleased. I PROMISE I WILL MY BEST THIS WEEK.

Prayer Requests

Please for me and Edi as we go daily on the field try to find man of peace and letting them know about Our Lord in Heaven, that we will be safe and having a good influence on people.

Please pray for a family that lost one of loved ones...there was 24 year old and was having cancer on stomach. He was Esi (Esmeralda)'s friend we have prayed several times before he passed away.

In His Holy Service

Altin & Edi
