**MY HELP COMES FROM THE LORD,  
THE MAKER OF HEAVEN AND EARTH.**

**If** we would make a list of the blessings that God has blessed us, also **if** we would make a list of difficulties and God has helped us it would be long. For this reason it would be nice and respectful to God **if we are honest and accept that everything good comes from God**, we are about to be more humble than we are.

Letting the others that your help comes from the Lord, telling the others that they are being put in our lives for a purpose, not by accident! All happen for purpose but the good things come from above. There are people that are blessing in our lives, there are people that are very challenging to live with but again we are here for a purpose to help one another to accept that God is in control and He is the one that helps every one of us to live a life worth living it, but the Question is Are we accepting the help of God?

**Bible Class**

We now are studying "Apologetics" and we still studying on the topic of "Reliability of the Bible". This class it's encouraging one, because is helping us to see the facts that God has provided that He is real and His Word is real.

**Worship Service**

We thank God that has provided every one of us with the possibility to come together and Worship Him. As came together Edi shared with us the lesson from **Genesis 11:1-9 "The Tower of Confusion"**

**Prayer Requests**

**Pray for Perso Janushi** she had a heart surgery, she is out of hospital, and days she has to go through some analyses. Pray that all go well and she will be fully recovered.

Pray for us as we go on the field of the Lord serving Him.

**In Hi Service**
