

Building Redemptive Relationships

It has been a challenge to us, because of the weather, rainy and cold days, on building redemptive relationships. But I think God has a good point on this time! If we go back on the Bible and see the example of Jesus we will see Him going away from the crowd in a quiet place to meditate and pray to God. May be we sometime we forget to do that and God has to take care about this too. So these rainy and cold days might be a good time to meditate and pray to the Lord for more strength and faith on Him.

Our Project...

We are working on a little project, in making some gifts to the Old people at House caring I don't know if it is a good name HOUSE CARING or not but anyway, we are buying sheets for beds which are used ones and with a very cheap price also handkerchiefs and soaps. We are trying to build **redemptive relationships** on this way we are trying to meet some of their needs also we are trying to call their attention to hear us what we have to say. Vosjana Esi and Redona are helping with cleaning ironing and packing, making them looks nice for them.

Our Bible Study

We now have began a series of studies about **"Worship"** Edi is teaching these series of study and last week we were studying about **"Prayer"** What Bible teaches for the **"Prayer"** How we should pray? To whom we should pray? Because it is very important to pray with a humble heart! And we always should remember that God knows everything and God understand those people that pray with an upright heart and ready to change for the glory of God.

Worship Service

We are blessed that we have such a wonderful God Who takes care of everything. For on the first day of the week made use to remember as we begin the week the Sacrifice that He made for us! We gathered on this blessed day to remember such a blessed event. Jesus Christ resurrected for giving us hope again and to rejoice that our Lord concurred death. Edi shared a very challenging lesson to us **"Learning How to be content on what we have"** From (Luke 15:11-32) Always we talk for the young son that took the wealth and spent it. And that he repented and comes back to his father. Also the older brother that gets upset because father did not give him something so that he can feast with his friends! But Edi helped us to see to both characters that they were not happy on what they have. But they were looking on things that they do not have to reach happiness. They were looking on things that did not have value to find

value. God sometimes needs to slap us in order that we may understand on the situation that we are. And that we may learn to be happy and thankful to God on what we have.

Prayer Requests

Pray for the group that is working on this little project and for the people that we are going to help, that God may open their mind and their heart to listen to us.

Pray for my brother Armelin he is still on a situation on his life that he does not what to do and what he wants.

Pray for Petraq because he does not know if going to have the job that he has or not. He is waiting very day to ask him not to come any more or come on work. Pray that God give him patience and give him faith on God that God will provide.

Thank you for all your prayers brothers. We pray for you too.

May God bless all of you as serve Him daily.

In His Holy Name

Altin & Edi
