

FIGHT THE GOOD FIGHT OF FAITH (1TI 6:12 NAS)

Every one of us have goals that strive to achieve, but one thing is worth fighting for, "The good fight of faith." It is sharing faith with others, the only thing that does matter. The struggles, the difficulties, contradicts, that we may have, we can answer with these two questions; "*Is it worth fighting for?*" "*It's my faith growing in anyway?*"

Sharing Our Faith

We are so grateful to God for giving us the purpose for what to fight for. In a society that goals and hopes are totally different from ours, we continue to be the light that God has asked us to be. It's very encouraging to see also others to the same thing. Even with the difficulties that life offers still some good hearted people that love the Lord, find the time the strength to fight the good fight of faith. And of those of those encouraging thing is, that one of our young ladies member of the church is engaged, with her attitude and with her behavior, has helped her fiancé to understand that how important is God in her life. And for that reason he is looking to understand that importance and seeking through truth to make God part of his life.

This the Couple that I am talking about (Nori & Esi)

God works in a mysterious ways; in the ways that we don't understand or comprehend, we just need to trust that He is in control and that will continue to provide for us.

Children Ministry

We are continuing our Children classes, we also trying to build a good relationship with them and their parents too. Building relationship it's very important because at least with those that we contacted with, they are very suspicious what's going on here with their children and they don't allow them to attend classes. For This reason we try to be

very transparent of what is going on in here. With time we have gained their trust. We thankful to God for that, because some of the parents they bring by themselves children to the classes.

Benevolence Ministry

We have started also the ministry of benevolence, who every member can bring from their own pocket food supplies, and then we make package to deliver for a poor family. And this past month we contacted a young couple at the village called Darzeze, they have one son 1 years old, and the wife is pregnant again and having three babies *triplet*. Their economic situation it's very bad, the husband it's willing to do any job he can find. We will try to help some this family in the future; will try to do our best to easy as much as we can their burden.

Evangelistic Ministry

Evangelism is a crucial thing; one of the things that Jesus did evangelizing was building teams and sent them out. So in order to have success on evangelism it's something that cannot be alone. Have been encouraging the congregation to do so, even the visitors has the concern now for telling the others. God is faithful and that His Word will not come empty. Because of that a whole family was able to visit with us, young men coming visiting with us, you know first steps building relationships.

We have organized some picnic as body here, and new contacts come to visit with us and enjoyed their time with us.

Prayer Requests

Please keep in your prayers the new couple (Nori & Esi) and their new family that are about create.

Pray for us that God will show us open doors to spread the Good News.

In His Service

Altin & Vosjana Koci.
